

Plan Now to Include this In-House Seminar in Your 2015 Corporate Training!

We have taught in-house seminars to the largest international corporations in the USA, EU & Asia

Randall Goodden International

In-House Seminars

Increasing Profitability and Protecting Your Company from Recalls & Product Liability Lawsuits in the U.S., Asia, and Worldwide

A Totally Unique In-House Seminar for Manufacturing Corporations

Every manufacturing team and product supplier worldwide needs to gain the knowledge this unique seminar provides in order to reduce your risk exposure, improve Quality operating procedures and profitability, and help prevent the possibilities of expensive product recalls and devastating product liability lawsuits.

In the U.S. alone there are over 80,000 product liability lawsuits every year, and the number of recalls continues to trend upwards every year in every industry sector every year worldwide, affecting medium sized manufacturers as well as the world's largest international corporations. These trends will never stop growing unless management teams receive the training we provide. That is why we have been uniquely teaching this seminar for the past 20 years.

Randall Goodden has been the worldwide leader in this specialized field, and taught the first 2-day seminar at Oxford University to the executives from the largest manufacturing corporations from around the UK and EU. Google "Goodden, Randall" and see all of the references pertaining to him. He had been a manufacturing executive and VP for decades, and now serves on Corporate Advisory Boards as well as the Personal Advisor to the Chairmen and Presidents of private corporations.

He is also the author of the 3 best selling books on this critical topic, the latest titled '*Lawsuit! Reducing the Risk of Product Liability for Manufacturers*'. Your team will learn all the key areas the corporation needs to focus on in order to steer clear of such financial disasters, and become more profitable.

This one of a kind seminar is designed for the entire Corporate Management Team, especially: the Executive Staff, Engineering, Product Safety, Quality, Reliability and Regulatory heads, Sales & Marketing, Customer Service, Manufacturing Heads, Purchasing, and numerous others based on your size and product lines.

Numerous clients have increased the profitability of their companies after having this in-house seminar because of all the recommended procedures discussed that will help not only prevent defective products from being created, but you will also learn better procedures for handling numerous processes that will lead to increased efficiencies and profitability. One of our clients was recently recognized nationally by a major publication as being "The Best in the U.S." because of the substantial financial improvements this seminar created for them.

We have done this in-house seminar for companies with management teams no larger than 15, as well as with over 550 attendees at one of the largest international corporations in 2014. We can teach our most comprehensive 2-day seminar, or a special 1-day version based on your needs and product background.

Join clients such as Siemens, Renault Car Company (Paris), Nari Technologies (China), Rockwell Automation, Artsana (Italy), Caben Asia Pacific (China), Ingersol Rand, Brose, Cummins, Kaiser Aluminum, GEA Farm Technologies, ITC (India), ThyssenKrupp, Douglas Dynamics, Indesit (Italy), Beckett, Umicore, CITIC (China), Shure, FaberFab, HellermannTyton, and numerous other corporations of all sizes.

Get your entire corporation on the right foot. Contact us now for the details of what we can provide. Schedule the event early to ensure the dates that work best for you. Special discounts for multiple corporate locations in the same trip.

Also, watch our website for public seminars being offered around the world.

What Your Management Team will Learn

Understanding How Recalls & Product Liability Lawsuits are Affecting Manufacturers Worldwide

A Review of All the Areas that Contribute to Product Liability

Legal Terminology and the Allegations You will Face

The Role of the Design Review Team and its' Membership

The Role of the Product Safety Team

Standards for Warnings & Instructions

Records Retention along with How to Identify and Stop Dangerous Documents

Key Aspects of Contracts and Agreements between Your Company and Your Suppliers, Subcontractors, Dealers & Distributors

Supplier Selection, Qualification and Control

Recall Readiness & Post Sale Duties to Warn

Creating the Product Liability Prevention Administration Team

Investigating Incidents

Understanding the Litigation Process

Each department within the company will learn what their roles and responsibilities are to help prevent and control problems that could otherwise have a significant impact on the corporation, financially as well as damaging the company's reputation.

Product liability prevention is not just a matter of "common sense", which is why all of the recall and lawsuit trends not only continue to go upwards, but the CEOs and Executive Staffs get themselves into legal trouble because of the poor decisions they are making..
