

Assuring Product Safety and Preventing Recalls & Product Liability Lawsuits WEBCASTS & WEBINARS

A very unique and highly informative series of 1-hour Webcasts and multi-day Webinars for manufacturing management. You will learn the current trends regarding Recalls as well as Product Liability Lawsuits in the U.S. as well as the causes. These are being presented as an alternative for those in cities where we currently do not have public Seminars scheduled.

Based on Randall Goodden's 3 best-selling books, and taught by him all over the world starting at Oxford University in 1996, this Webinar is a real eye opener and will help you take your corporation to a whole new level of efficiency and profitability.

These Webcasts & Webinars are designed for the Executive Staffs, Heads of Quality, Engineering, New Product Development, Product Safety, Product Testing & Reliability, and the Legal Department.

Current Schedule of Webcasts & Webinars

U.S. Live Webcast Apr 12 1:00 CST 1hr "*Current Trends & Causes*"
